Step 2: Link Your AWS Certification to Your Partner Central Profile
Sign In to AWS Partner Central: Go to AWS Partner Central Login and sign in with your company email credentials.
Access Your Profile: In the top-right corner, click on "My Profile". Edit AWS Certification Information: Scroll to the "AWS Certifications" section. Click "Edit".
Enter Certification Account Email: In the "AWS T&C Account Email" field, enter the email address associated with your AWS Certification account (often your personal email used for AWS exams).
Check the box to consent to share your certification data with your employer.
Click "Save".

It may take up to 5 business days for your certifications to appear on your employer's Partner Scorecard.

Step 3: Verify Certification Association
After 5 business days, confirm with your company's alliance lead or Partner Central administrator that your certifications are reflected on the Partner Scorecard.docs.aws.amazon.com
